

Religious Education Vision

At St Mary's Hampton CE Primary School, Religious Education is at the heart of our Christian vision of faith, hope and love. Through the LDBS units of work, we nurture curious, reflective and compassionate learners who are inspired to explore life's big questions and understand the beliefs and practices of Christianity and other world faiths.

Rooted in Christian love, our RE curriculum enables every child to know that they are valued and created in the image of God. We encourage pupils to develop confidence in expressing their own ideas while showing deep respect, understanding and appreciation for the beliefs, experiences and traditions of others.

Our RE teaching empowers children to live out our school values of faith, hope and love. Allowing them to become courageous, hopeful and compassionate individuals who can make a positive difference in their community and the wider world.
