

St Mary's Sports Premium Strategy 2023-24

The Sports Premium is an annual amount allocated to schools from central government to promote teaching and learning in PE and Sport in Primary schools. St Mary's receives £16,400 annually for this purpose.

Schools must spend the funding to improve the quality of the PE and sport activities they offer their pupils, but they are free to choose the best way of using the money.

For example, it is recommended that funding can be used to:

- hire specialist PE teachers
- hire qualified sports coaches to work with teachers
- provide existing staff with teaching resources to help them teach PE and sport
- support and involve the least active children by running or extending school sports clubs
- run sport competitions or increase pupils' participation in sports
- run sports activities with other schools

There are 5 key indicators that schools should expect to see improvement across:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

The table below shows the intended spend and impact under the headings of the 5 key indicators:
